

Inn on the Sky

Inn On The Sky will please the discriminating traveler with its warm ambiance, inviting architecture, fine appointments, and gorgeous views. This timber frame style inn offers five guest rooms, all with beautiful ensuite baths and large, open reception areas with fireplaces, innovative lighting, and expansive exterior decks, all in a feng shui adaptation. The perfect Pennsylvania bed and breakfast for weekend getaways, business travelers, receptions, and retreats.

The inn has incorporated many green building elements such as geothermal heating and cooling, low E windows and doors, structural insulated panels, and soy-based insulation. Geothermal runoff has been artfully diverted to create a running stream and pond, complete with goldfish.

Oak trees cleared during construction have been locally milled to create beautiful and varied wood flooring.

Fresh air and local flair are abundant in Penn's Valley. Enjoy the crisp mountain air from our wraparound deck or walking trails, or visit Elk Creek microbrewery and restaurant featuring seasonal, local and organic cuisine. For more local and organic, visit the Millheim Farmer's market, running Saturday mornings seasonally. To enjoy the local landscape, visit nearby Penn's Cave boat tour and wildlife park. Nearby Bald Eagle State forest boasts many nature parks and trails, and local Penn's, Elk, Pine, and Spruce Creeks for world-renowned trout fishing.
